Esperanto into schools DE, GB, HU; a summary of the 2-year primary school Comenius project

Dear Friends,

Here at last is a detailed report with a series of photos of the last meeting of primary school children from the 3 partner

towns, Bar Hill in Britain, Miskolc in Hungary and Herzberg am Harz, in Germany. As part of the Comenius project subsidised by the EU we cooperated for 2 years from 2008 to 2010. About the collaboration I will report in detail in the following number of IPR, now I am summarising only the events of the

last meeting, which hopefully however will not be the last, indeed the friendships forged, the communal experiences will bind together children, families and colleagues.

See some photos at http://esperanto-urbo.de/gallery.php?gallery_id=90835303

How did the project period end? What happened between 9 and 13 April?

During the last stage of the stay in Herzberg there occurred communal learning, singing, film shows about the partner

schools, games, dancing, a small exhibition about the important events in the 2-year cooperation, etc.

There was no lack of tourist items together with the host families: a mining-museum visit to Clausthal-Zellerfeld, excursions to Goslar and Bad Harzburg, a look around town in Herzberg, a

visit to a castle and to The Esperanto-Centre.

A photo-report with many photos and explanations can be found on the website

<http://www.ipernity.com/doc/43336/album/185947>

The three project partners with help from the head of Nicolai School in Herzberg, Mr Frank Keller, the staff and a group

of parents prepared a grand farewell evening party. As well as the British and Hungarian guests and German ost-families,

children took part and also the other lady teachers of the school, the mayor, Gerhard Walter came, the secondary school rector, H.J. Bötzel, friends of the Esperanto group and many other people. From Hungary too came two

lady teachers of foreign languages; the British school party from Bar Hill was accompanied by the deputy head, Mr

Sanjay Mistry with his wife.

school Comenius project.txt

About 100 people enjoyed a pleasant farewell evening party with games in Esperanto, greetings, speeches, films, singing

and dancing by the children. People took photos, made films, talked a lot to each other, and all was concluded by an

abundant party buffet.

A detailed report of the whole Comenius-project (with many additional materials can be read on

<http://esperanto-urbo.de/page.php?pid=83390898>

What more? As well as the already available short films about the three schools a DVD-film will be got ready about the

activities, events and results.

Apart from that we would like to ensure that friendly, family and school contacts independent of the project should

continue, and the experiences passed on to other schools and colleagues.

Those interested in similar interaction cooperation, future projects, please turn to

Tim Morley, Ilona Fedor or Zsafia Korody.

P.S. AGEI (the German section of the International Union of Esperanto Teachers) in cooperation with ILEI will organise

the Traditional October Teachers' Meeting (TORPED-6) between 8 and 12, October 2010 in Herzberg.

Main theme: school and other projects, requests for financial support.

The information, and application form you will soon find in the following number of IPR and already on the AGEI-website <http://esperanto.de/agei> Meetings

With many greetings

Zsafia Korody
